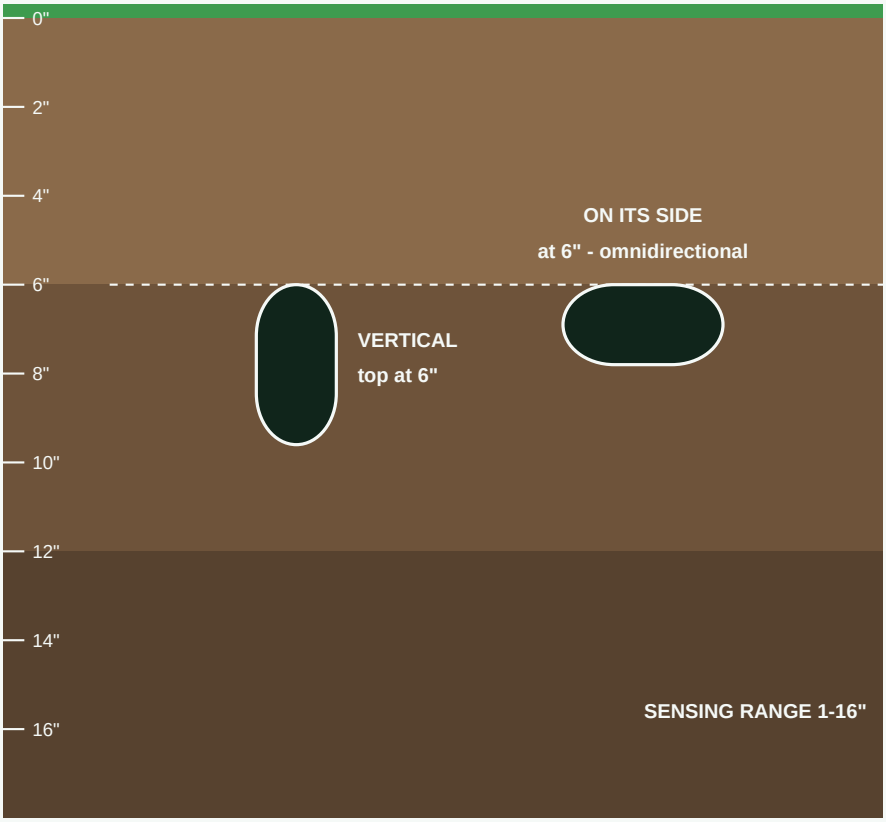
GROUNDWORX®

PRE-SALE · UNDER DEVELOPMENT

iQ Capsule

Playing-surface intelligence, buried out of sight.

Available with PURE Insight and available with Acclima · Target release Q2 2027



Soil profile, to scale (inches below the surface).

Final product design shown.

PLACEMENT	Top sits 6 inches below the surface, or turn it on its side at 6 inches - omnidirectional, with the sensing element reading below.
SENSING RANGE	1-16 inches through the root zone, beneath greens, athletic and equestrian surfaces.
INDEPENDENT	Collects data on its own - no iQ SmartWell required - and reports into GAIN alongside the GX-1 series.
